

Lay In Diffuser D42 Steel / Aluminum

DUCTS+GRILLES+DIFFUSERS+FILTERS+FITTINGS+LOUVERS+DAMPERS

3-in-1 Assembly by Vermont Corp integrates three components into a single unit: a D4V diffuser with fixed straight blades spaced 1" apart, a rectangular-to-round adapter, and a butterfly-type volume control damper. Its preassembled configuration streamlines installation while ensuring dimensional compatibility, proper alignment, and airtight connections between components. Integrated eye bolts allow for permanent suspension, providing secure and stable attachment to the structure. Designed for HVAC, ventilation, and exhaust systems in residential, commercial, and industrial applications.

1

Finishes

Baked electrostatic powder coating in Gloss White (standard). (Other colors available)

2
