

Lay In Diffuser D43 Steel / Aluminum

DUCTS+GRILLES+DIFFUSERS+FILTERS+FITTINGS+LOUVERS+DAMPERS

3-in-1 Assembly by Vermont integrates three components into a single unit: a D4V diffuser with fixed straight blades spaced 1 1/2" apart, a rectangular-to-round adapter, and a butterfly-type volume control damper. Its preassembled design streamlines installation while ensuring dimensional compatibility, proper alignment, and airtight connections between components. Integrated eye bolts allow for permanent suspension, providing secure and stable attachment to the structure. Designed for HVAC, ventilation, and exhaust systems in residential, commercial, and industrial applications.

1

Finishes

Baked electrostatic powder paint (polyester) bright white standard. Other colors available: grey (electrostatic powder paint) and black (liquid bake coating).

2

Dimensions

AVAILABLE DIMENSIONS D43

Width	Height	Diameter
6"	6"	6"
9"	9"	8"
12"	12"	10"

3

Construction

Made entirely of Steel with an option in Aluminum

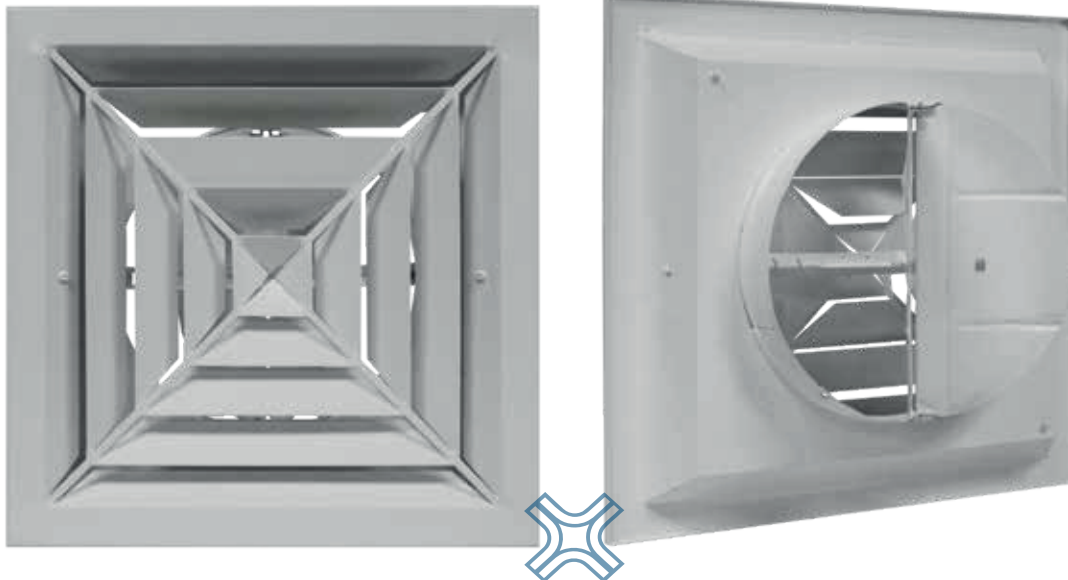

4

Applications

For installation in drop ceilings for department stores, restaurants, public offices, hospitals, etc.
